## JCRC-NY Applauds Congress for Advancing the Taylor Force Act

The Jewish Community Relations Council of New York (JCRC-NY) applauds Congress for adding the Taylor Force Act to the omnibus appropriations bill and praises the bipartisan effort to do so led by Senate Minority Leader Charles Schumer (D-NY) and Senator Lindsey Graham (R-SC). We thank House Foreign Affairs Committee Chairman Ed Royce (R-CA) and Ranking Member Eliot Engel (D-NY) for their tireless efforts to help pass the Taylor Force Act. We are also grateful to past JCRC-NY board member Sander Gerber for his unwavering commitment to advance this bill.

The Taylor Force Act stops U.S. funds that directly benefit the Palestinian Authority until it ceases payments to terrorists and their families. Such incentives foster violence and mistrust, thus leading Israelis and Palestinians further from a peaceful resolution to the conflict.
